Bachelor's degree in **Information Security**
at Azerbaijan State University
of Economics (**UNEC**)

Nov 2020 – May 2024

Certifications

IBM Cyber-Security Analyst Professional Certificate

Feb 2022

6 months long course. Financed by SOCAR.
Supported with lessons from local experts.
See credits in my LinkedIn.

Profile

Cyber-Security student with a passion for JavaScript, specializing in realization of secure, distinctive interface components and implementing specific algorithms that go beyond standard templates. With over 3 years of experience in front-end development, I possess a strong confidence in my skills. While I have back-end development skills too with Express and NodeJS, my core expertise is firmly centered on client-side.

Experience

- Figma for personal projects, freelance and demos
- Deep understanding of OOP, Polymorphism, Procedural and Functional paradigms
- Comfortable with Linux and CLI tools (thanks to my major)
- Familiar with the concepts of Recursion, Asynchronous Programming, Time and Space Complexity.
- Cares a lot about code aesthetics, maintainability and DRY principles.
